INDEX.

Officers of the Board of Trade, 1878.....	6
Officers of the Board of Trade, 1879.....	7
Secretary's Annual Review.....	9, 18
Annual Report of the Board of Directors.....	19, 21
General Statistical Statements.....	23
Population of the United States, Illinois and Chicago.....	24
Acres under cultivation since 1858.....	24
Valuations of Property and Debt of Illinois.....	25
County, Township, Municipal and other Public Debts of each County in Illinois in 1878.....	26
Valuations of Property and Debt of Chicago.....	27
Public Debt of the United States, annually since 1790.....	28
Detailed Statement of the Public Debt December 31, 1878.....	29
Premium on Gold January, 1862, to December, 1878.....	30
Exports and Imports of the United States for a series of years (value).....	31
Exports of Flour and Grain to Europe since 1846.....	32
Total Exports of Flour and Grain for five years.....	32
Net Imports of the United States (detailed) for the years 1876, '77 and '78, ending June 30.....	33, 34
Domestic Exports of the United States (detailed) for the years 1876, '77 and '78, ending June 30.....	35, 36
Recapitulation of Imports and Exports for three years.....	36
Exports of Beef, Hog Product, Butter and Cheese (detailed), with its dis- tribution, during the year ending June 30, 1878.....	37
Exports (weekly) of Flour, Wheat and Corn from the principal Atlantic ports to Europe during 1878.....	38
Exports (weekly) of Hog Product from the principal Atlantic ports during 1878.....	39
Statistics of Earnings and Expenses of the Illinois and Michigan Canal...	40
Receipts and Expenses of the Illinois River Improvements.....	40
Statistics of Earnings and Tax of the Illinois Central Railroad.....	41
Pork Packing in the Mississippi Valley for five years.....	42, 43
Pork Packing in the Mississippi Valley for a series of years (regular season)	44
Summer Pork Packing in the West.....	44
Comparative Statement of the last ten Packing Seasons.....	44
Statistics of the Live Stock and Packing Business in Chicago for a series of years.....	45
Detailed Statement of the Pork Packing of Chicago, Season of 1877-8.....	46, 47
Semi-Monthly Prices of Mess Pork in Chicago for nine years.....	48
Semi-Monthly Prices of Prime Steam Lard in Chicago for nine years.....	49

Semi-Monthly Prices of Flour and Wheat in Chicago for seven years.....	50
Semi-Monthly Prices of Corn and Oats in Chicago for seven years	51
Flour Statistics, Manufacture and Stocks in Chicago	52
Weights of the Bushel as established by Law	52
Product of Grain in the United States in 1877 and previous years, U. S. Agricultural Department.....	53
Acreage of Grain Crops in the United States for eight years	53
Acreage and Product of Wheat, Corn and Oats in Illinois (by Counties) in 1878, State Agricultural Department	54, 55
Receipts of Flour and Grain at Chicago for a series of years.....	56
Receipts of Wheat at Chicago from twenty-four crops.....	56
Shipments of Flour and Grain from Chicago for a series of years.....	57
Receipts of Sundry Leading Articles at Chicago for a series of years.....	58
Shipments of Sundry Leading Articles from Chicago for a series of years..	59
Rates of Inspecting and Weighing in Chicago.....	60
Rules Governing the Inspection of Grain in Chicago.....	61-63
Inspections of Grain at Chicago, 1878.....	64
Elevator Capacity for Grain Storage in Chicago.....	65
Elevator Rates for Grain Storage in Chicago	65
Visible Supply of Grain, weekly, during 1878.....	66
Detailed Annual Statistics of Chicago for 1878.....	67
Values of Duty-paying Goods Imported during the Year and Duties on same	68
Duties Collected at Chicago on Imported Goods for four years, by months..	68
Detailed Statement of Goods and Quantities of each Imported during the year	69
Value of and Duty on Imported Goods Warehoused, by months.....	70
Internal Revenue Collections, Detailed Statement by months.....	70
Importations of Tea and Coffee.....	71
Direct Exports of Domestic Produce to Europe.....	72, 73
Freight Rates from Chicago to Europe.....	73
Exports of Domestic Produce to Canada, by Lake.....	74
Weekly Receipts of Flour and Grain.....	75
Weekly Shipments of Flour and Grain.....	76
Weekly Stocks of Flour and Grain	77
All-rail Through Business in Flour and Grain.....	78, 79
Receipts and Shipments of Several Leading Articles (by routes).....	80
Statement showing the entire Movement of Flour and Grain (by routes)...	81
Monthly Receipts and Shipments of Flour.....	82
Weekly Prices of Flour.....	83
Monthly Receipts and Shipments of Wheat.....	84
Weekly Prices of Wheat.....	85
Monthly Receipts and Shipments of Corn.....	86
Weekly Prices of Corn and Oats.....	87
Monthly Receipts and Shipments of Oats.....	88
Monthly Receipts and Shipments of Rye.....	89
Weekly Prices of Rye and Barley.....	90
Monthly Receipts and Shipments of Barley.....	91
Monthly Receipts and Shipments of Cattle.....	92
Monthly Receipts and Shipments of Sheep.....	93

Monthly Receipts and Shipments of Hogs	94, 95
Weekly Prices of Cattle, Hogs and Sheep	96
Weekly Prices of Beef Product	97
Weekly Shipments of Hog Product in detail	98, 99
Monthly Receipts and Shipments of Barreled Pork (by routes)	100
Monthly Receipts and Shipments of Cut Meats (by routes)	101
Monthly Receipts and Shipments of Lard (by routes)	102
Monthly Stocks of Hog Product on Hand	103
Weekly Prices of Hog Product	104, 105
Daily Prices of Wheat, Corn, Oats, Mess Pork and Lard for future delivery	106-117
Monthly Receipts and Shipments of Flax Seed	118
Monthly Receipts and Shipments of Grass Seed	119
Weekly Prices of Salt and Seeds	120
Monthly Receipts and Shipments of Wool	121
Weekly Prices of Wool and Hides	122
Monthly Receipts and Shipments of Hides	123
Monthly Receipts and Shipments of Butter	124
Highwines, Manufacture and Weekly Prices	125
Monthly Receipts and Shipments of Coal	126
Monthly Prices of Coal (Delivered)	127
Monthly Prices of Baled Hay	127
Lumber Statistics—Receipts, Shipments and Stocks	128
Weekly Cargo Prices of Lumber, Shingles and Lath	128
Sources of Supply of Lumber and Shingles received by Lake	129
Monthly Yard Prices of Lumber, Shingles and Lath	130
All Rail Freights Eastward	131
Lake (steam) and Rail Freights Eastward	132
Lake Freights on Grain by Sail, Erie Canal Freights, and Through rates to New York	133
Receipts and Shipments by Rail not otherwise reported	134, 135
Receipts and Shipments by Illinois and Michigan Canal	136, 137
Lake Commerce of Chicago	139
Opening of Navigation for a series of years	139
Receipts and Shipments in 1878	140, 141
Statement of Arrivals and Clearances in 1878 and previous years	142
Marine Collections for three years	143
List of Vessels Owned in Chicago, with the Tonnage of each	144-146
List of Vessels Built and Documented in Chicago in 1878	146
List of Vessels Reported Lost in 1878	146
Members of the Board of Trade for 1878	147

GENERAL REVIEW.

N. K. FAIRBANK, Esq., *President*:

Sir,—I beg herewith to present to yourself, the members of the body over which you preside, and through them to such of the public as may be interested in its perusal, the Twenty-first Annual Review of the Business of Chicago in Agricultural Products, together with other matter presumed to be of more or less interest to all students of the current affairs of our city and country.

The year just closed has been one of unparalleled activity in the movement, through this city, of farm products, the receipts of almost every leading item being largely in excess of any previous year in our history. In grain (flour reduced to wheat) the receipts have aggregated 134,086,595 bushels, being nearly 40,000,000 bushels in excess of those of 1877, and by more than thirty-five per cent larger than those of 1873, in which year they were greater than any other previous to 1878. In hogs, the raising of which has grown to be a leading branch of western farming, the increase has been still more marked, our receipts for 1878 having aggregated the enormous number of 6,442,166, an increase of over fifty per cent above those of 1877, and over forty per cent larger than any previous year. It is to be regretted that this vast volume of the results of labor has not yielded a larger money return. Prices have ruled extremely low, and hence the proceeds have not gone as far in liquidating previously incurred obligations as was desirable by producers encumbered by debt; in the exchange for other commodities, however, they have not fallen far short of their usual exchangeable value, nearly everything that the farmer needs to purchase having ruled nearly or quite as low, relatively.

The general mercantile business of the city and of the northwest has been in a healthy condition; its volume has largely increased, and a general feeling of encouragement exists in all commercial circles. The wholesale trade of the city in dry goods, groceries, boots and shoes, drugs, etc., has been active, and is reported to have been conducted with generally satisfactory results. While there can be no question but that in quantity of goods sold there has been a large increase over any previous year, it is hardly probable that in money value there has been much, if any, increase over 1877. Reliable figures in respect to the mercantile and manufacturing interests of the city are exceedingly desirable, but as they are not attainable, no *guess* at what they may or ought to be are indulged in in this connection. The daily press of the city have published, as we are told, carefully prepared details of these matters, but as these reports differ widely, in some cases over one hundred per cent on the sales of given lines of goods, and are not approximately near each other on any, it would seem to be an undesirable field for random estimates.

The financial affairs of our municipal government have greatly improved within the past two years. It is a source of sincere congratulation that the system of lavish, if not reckless, expenditure, with no due reference to pay-day, has been brought to a termination and a new era inaugurated in this direction. The large floating debt of the city, which a short time since was a source of much embarrassment to the authorities and mortification to the people, has been almost entirely extinguished, and the bonded debt has also been reduced during the past year by over \$300,000, and this under an abatement of over

\$1,500,000 in annual city taxes, as compared with 1874. In respect to its public debt, as compared with what the city enjoys as the representative of that debt, Chicago probably occupies as favorable a position as any large city in the country. Municipal taxation, although, here as almost everywhere, more or less a subject of complaint, cannot be said to be excessive in the aggregate, being considerably less than one per cent on a fair cash valuation of the taxable property of the city; the gross inequalities with which it is distributed, and the hap-hazard manner in which the so-called equalization of assessments is adjusted, are, however, a real grievance, and call loudly for an efficient remedy.

The State of Illinois, in respect to her financial affairs, stands almost without a peer in the country, its entire debt, unprovided for by funds in the treasury, is at this time only a trifle over \$500,000, with a revenue from one source, aside from general taxation, of more than sufficient to pay it all in less than two years. The several counties, cities, villages and school districts in the state are less fortunate, but none of them, with perhaps two exceptions, can be said to be burdened to an injurious or inconvenient extent in respect to public debts. A valuable statement, compiled by the State Auditor, showing the amount of the obligations resting on each county is published herewith.

In the general business and financial affairs of the country the outlook seems most encouraging and propitious. Foreign trade relations have continued in a very gratifying condition. The credit of the nation stands to-day on a higher plane and apparently more permanent basis than ever before; its refunding securities are being absorbed at a rate that, if continued, will, within a short time, extinguish all its outstanding obligations bearing interest above five per cent. The proposed advent of specie resumption with the opening of the new year promises the fullest measure of success; and as with it the appreciation in value of our currency will cease, it seems reasonable to anticipate a growing disposition to place money in those channels where there shall be a promise of its earning something for its owner. Its days of inherent growth while lying in bank-vaults will have ended, and it must now mingle in some form with the industries and enterprises of the country if it be expected to bear any harvest of increase. The condition of our foreign trade during 1878 has enabled the country to retain at home its entire production of the precious metals, besides calling home a very large amount of securities held abroad, upon which we have, for many years past, been obliged to provide interest payable in coin, which, of course, has gone out of the country. The retention at home of our own production of the precious metals will give us within a few years a larger stock of coin than any other nation has ever controlled, and must result in very greatly enhancing our financial stability and commercial power. The improved condition of our balance-sheet with foreign nations within the past five years is shown in the official reports of the government of imports and exports. For the year ending June 30, 1873, the imports of merchandise were valued at \$642,136,210; for the year ending June 30, 1878, they were valued at \$437,051,532, showing that we bought \$205,000,000 worth of goods more in the former than in the latter year; and while our exports of merchandise in 1873 were \$522,479,822, they were \$684,865,766 in 1878, showing that we sold over \$162,000,000 worth of products more in 1878 than in 1873, the net result being an improvement in our relative condition of debtor and creditor, on the exchange of merchandise, as between the two years, of over \$1,000,000 per day. It is of especial interest to the west to observe that of the increase within those years of our domestic exports over \$128,000,000 is in breadstuffs and provisions. During the same time the exports of manufactured cotton have materially declined, being less by over \$47,000,000 in 1878 than in 1873. The exports of this important product were even less in 1878 than in 1860.

The rapid development of the great northwest, especially such portions of it as may be said to be commercially tributary to Chicago, is indeed marvelous; but great as it has been hitherto, every indication points to a more rapid settlement in the near future than

ever before. Immigration, both from other sections of this country and from Europe, promises to be very great the coming year, and it will not be surprising to see the present aggregate population of Minnesota, Iowa, Kansas, Nebraska and Dakota doubled within the next five years. Probably nowhere in the world is there so inviting a field for the industrious and intelligent citizen as within the northwestern states. The increasing population, with the social advantages which result therefrom, and the rapidly developing means of communication with the world, tend year by year to make these homes more attractive, while, from various causes, many other portions of the world are becoming less so. A larger area of territory seems inclined to transact its commercial exchanges through Chicago than the most sanguine believed to be probable a few years since. This fact is well illustrated in the comparison of the business of this city and St. Louis during the past two years, especially when it is remembered that no part of the country has developed in late years so rapidly as Kansas, which is much nearer St. Louis than Chicago, and also that the Wheat crop of 1878 in Iowa and Minnesota was exceptionally deficient in yield, thereby reducing the receipts of wheat at this point materially from what they would have been had these crops been as good as those in the more southern states. In grain (flour reduced to wheat), the receipts at Chicago in 1878 were 39,670,196 bushels greater than those of 1877, while those of St. Louis were only 5,271,634 bushels greater. The receipts of hogs at St. Louis in 1878 were 555,315 greater than those of 1877. At Chicago they were 2,251,857 greater; in hog product, the comparison for the two years is almost equally marked in favor of Chicago. These are eminently representative commodities of the average agricultural productions of the west, and their line of movement from producer to consumer shows conclusively the relative position of these two cities in respect to the trade in farm products.

I estimate the value of farm products shipped from this city (not including such as originated at Milwaukee) for 1878 as follows :

Flour and Grain (equal to 118,675,269 bushels).....	\$68,150,000
Live Stock	34,300,000
Meats, Lard, Tallow and Dressed Hogs	66,750,000
Butter and Cheese	10,750,000
Wool and Hides	17,250,000
Seeds and Broom Corn.....	3,800,000
Highwines and Alcohol	4,100,000
Miscellaneous Products.....	2,300,000
Total	\$207,400,000
Corresponding Estimate for 1877.....	\$218,400,000
Corresponding Estimate for 1876.....	231,450,000
Corresponding Estimate for 1875.....	215,300,000
Corresponding Estimate for 1874.....	197,400,000
Corresponding Estimate for 1873.....	180,000,000

The extremely low prices current in 1878, on most articles of produce, reduce the values below those of the previous three years, although the quantities of almost all commodities are largely increased. Another reason for the smaller showing in value of shipments is the fact that there remained in the city at the close of 1878 over 6,500,000 bushels more grain, principally wheat, than at the close of 1877.

Of the grain received, 112,763,288 bushels have been received by rail, and of this, 234,788 car loads have been inspected into store; 19,265,529 bushels was transferred from one railroad to another, without going through our city elevators, against 11,044,143 so handled in 1877. This transfer movement, while larger than the previous year, has been less in proportion to the entire grain movement. Statements herewith show the details of this branch of the traffic; by far the largest portion of the grain transferred from one railroad to another has been controlled, bought and sold in this market.

FLOUR.

The trade in flour has been only moderately active during the past year. The excellent and large crop of winter wheat, harvested in 1878, resulted in a larger supply of winter wheat flour than hitherto for a number of years. These flours have, to a considerable extent, superseded the better qualities of spring wheats, and have ruled somewhat lower in price. The supply of choice wheat, with which the higher qualities of Minnesota flours are made, has been scarce since the old crop was exhausted, and those brands have ruled relatively high. Considerable quantities of flour have been received in sacks, but this, in the tables, is converted into its equivalent in barrels. The establishment of grades for the inspection of flour within the past year has not as yet been productive of very marked results, but it is believed the trade will gradually become accommodated to the policy of dealing more by grade, especially for the filling of orders for export. The grades of "extra" and "superfine" are established to correspond with those similarly designated in New York. The city manufacture during the year has been 308,284 barrels,—a slight increase over the previous year. The manufacture of oat-meal and corn-meal is largely increasing in and near Chicago, and considerable quantities, especially of the former, are exported to Europe. The stock of flour in the city at the close of the year was about 90,000 barrels.

WHEAT.

The receipts of wheat during the past year have been 29,713,577 bushels,—the largest, with the exception of 1874, (when they were about 50,000 bushels greater,) of any year in our history. Between five and six millions of the receipts have been winter wheat, nearly all of which was from the crop of 1878. The crop of winter wheat in the states west and southwest of Chicago was of exceptionally fine quality and very large. For a number of years past the receipts of winter wheat at this point had been quite insignificant, and it was difficult to induce the local speculative interest to operate in it to any considerable extent, hence sales in the main were made for direct shipment; and as competition, on this account, was less active, the prices realized for it were scarcely up to its value as compared with those current for the speculative grade of No. 2 spring. The receipts at this point were largely of the softer varieties, which a few years since always commanded a premium, but under the present processes of milling are less desirable than the harder and more glutinous grain. The receipts at Chicago, January 1 to August 1, mainly spring wheat, were nearly 10,000,000 bushels in excess of the corresponding time in 1877, giving, for the year ending August 1, substantially the crop of 1877, an aggregate of 23,827,800 bushels,—the largest, with two exceptions, of any crop ever received at this point.

The spring wheat crop of 1878 was exceedingly promising until just before it was ready for the reaper, when, under the influence of a scorching sun, a large portion of it was totally ruined, especially in the large spring wheat producing section from central Iowa to central Minnesota; within this belt thousands of acres were so completely blighted that all ideas of harvesting it were abandoned, while a great deal of that which was deemed worth saving was of very inferior quality, but poorly repaying the labor expended upon it. As illustrating the great damage done the spring wheat crop by the blight, there being but little other damage, it may be stated that of the inspections of 27,825 cars, received from September 1 to December 31, in 1877, there were 7,796 cars No. 1; 17,059 cars No. 2, and 2,970 cars below No. 2; while of 30,320 cars received during the corresponding time in 1878, 64 inspected No. 1; 12,685 No. 2, and 17,571 below No. 2.

The final report of the Agricultural Department on the crop of 1877 gave the product of the country as 364,194,146 bushels, of which 99,174,346 is credited to Wisconsin, Minnesota, Iowa and Nebraska, mainly spring wheat. The yield per acre is given as 15 bushels in Wisconsin; 18½ in Minnesota; 14½ in Iowa, and 15 in Nebraska. The crop

for 1878, by the latest report of the Department, is understood to be fixed at about 421,000,000 bushels. The report of the Department for December gives the yield in the above states as $12\frac{4}{10}$ bushels per acre in Wisconsin; 12 in Minnesota; $9\frac{4}{10}$ in Iowa, and $13\frac{1}{10}$ in Nebraska. These figures do not correspond with most private estimates, especially those given for Minnesota, in which state it is usually considered the yield was little, if any, over that of Iowa. It is possible, however, that under-estimates of the Department on the product of winter wheat may fully offset any over-estimate on spring, if such really exist. Any estimate of the product of a great crop in a country so large as ours, with the best means attainable for gathering the information, must be more or less unreliable, and at best can only be regarded as a moderately close approximation of the facts. The crop of Illinois for 1878 is estimated by the State Department of Agriculture at 33,883,398 bushels, against 32,490,556 bushels in 1877, the estimate of the same authority.

The export demand for Europe has been unprecedentedly large throughout the year, having aggregated considerably over 100,000,000 bushels (including flour) from the Atlantic ports alone,—considerably more than half of which has been exported from the new crop. Of the later exports, an unusually large proportion has gone to the Continent, leaving large deficiencies yet to be supplied to Great Britain.

The United States, now producing from twenty-five to twenty-seven per cent of the whole wheat supply of the commercial world, has, as a result of the large abatement in the cost of inland transportation within the past few years, come to be able to profitably undersell any other country in the large consumptive markets of Europe, even with the disadvantage of having to pay the large item of ocean transportation to foreign ship-owners.

The direct export from this city of wheat and flour has largely increased during the past year, having reached over 6,000,000 bushels of wheat and 147,000 barrels of flour taken on through bills of lading issued in this city. The stock of wheat in the city at the close of the year amounts to over five and a half million bushels, embracing nearly all the No. 2 spring received since harvest, the shipments during the fall months having been confined almost exclusively to winter wheat and the lower grades of spring. The fact that so little No. 2 spring has gone forward has given the impression at the east, and also to some extent in Europe, that all our spring wheat is of an inferior quality. This is quite erroneous, as our inspection has been well maintained, and what of spring wheat has inspected as No. 2 is well up to the average of ordinary years. The cause of its remaining here is to be found in the fact that it constitutes the chief speculative article in grain, and the price has by this means been sustained at a point so much above the lower grades that shippers have preferred the latter. For No. 2 spring the price at the opening of the year was about 109 cents; the fluctuations have been moderate, the highest point, 114, being reached late in April; the lowest, 77, about the middle of October. No. 3 spring opened about 7 cents below No. 2. Since harvest, however, it has ruled from 12 to 15 cents below No. 2. No. 2 Red Winter, since harvest, has ranged from about the same as No. 2 spring to 7 or 8 cents above that grade.

CORN.

The trade in corn for the past year has assumed a magnitude so far beyond any previous year that its volume is somewhat startling. The receipts, which have aggregated 63,651,518 bushels, are nearly 15,000,000 bushels in excess of any previous year. Of this enormous amount, one railway line (the C. B. & Q.) brought over 23,000,000 bushels. During the month of August the daily average receipts were over 423,000 bushels. It is a remarkable fact that while the receipts at this point have been nearly 16,000,000 bushels in excess of those of the previous year, those of St. Louis have been 2,800,000 less. The market throughout the year has ruled remarkably quiet and the fluctuations have been within unusually narrow limits. The highest point reached on No. 2 cash was $43\frac{5}{8}$, early

in April, although that was about the opening price of the year. The general tendency of the market since the opening of lake navigation has been downward, closing at about 30 cents. The average quality of the corn, as indicated by the inspections, has been inferior to that received in 1877. The exports of corn for the year ending June 30, 1878, were over 85,000,000, being nearly 15,000,000 greater than any previous year. During the fall months the exports were lighter, but there was not a large supply in the various markets of the country at the close of the year, the "stock in sight" being only about 2,500,000 bushels larger than a year since. The price of corn on the seaboard has ruled unprecedently low, which greatly increased its consumption both in this country and in Europe. The prices ruling in Chicago have left but little, if any, margin of profit to the producer, especially such as were at points in the extreme west, where rail freights were relatively high. The small returns for this crop, past and prospective, induced a somewhat diminished production in this state for 1878 as compared with 1877, the area planted being some 260,000 acres less, the yield, according to the estimate of the state authorities, being about 251,000,000 bushels, against 269,000,000 in 1877.

The new crop is of very superior quality, and with a, so far, fine winter, promises to be a desirable one for shipping.

OATS.

The receipts of oats have been 18,839,297 bushels, being larger than ever before; as heretofore, for several years, the shipments have been mainly by rail, owing to the fact that the rail rate is made on weight, while that by water is made on bulk. Prices have ruled remarkably steady but very low, the range being, for No. 2 mixed, between 18 cents about the middle of October, to 27½ about the 1st of August, closing December 31 under 20 cents. White oats have usually borne a small premium over mixed, especially when sold by sample.

The oat crop of 1878 is reported good throughout the country, though probably less in aggregate yield than that of 1877.

RYE.

The receipts of rye were larger than ever before. The trade has been conducted without any great fluctuations, the extreme range in prices being from 41½ to 60 cents for No. 2, the market closing for the year at about 44 cents. At the close of July there was a sharp advance for two or three days, owing mainly to sales made in anticipation of arrivals of the new grain, which were delayed on account of rain storms. The export demand for this grain seems to be steadily increasing, but as yet is not of very great importance.

BARLEY.

This grain, as usual, has ruled very variable in price, the extreme range on No. 2 being from 41 cents in April to 117 for the first receipts of new in August. Extra No. 3 ranged from 35½ cents in January to 76 in the latter part of September. Of the receipts, which have been 5,754,059 bushels, about five-sixths inspected below No. 2. Since harvest even a larger proportion passed into the lower grades, indicating a very serious damage to the last crop as the result of the excessively hot weather and untimely showers during harvest time. Something over 100,000 bushels have been received from the east, mainly of Canadian growth. A large proportion of the barley used by local maltsters is purchased by sample, a shade difference in quality being regarded as of more importance in this grain than any other. During a good portion of the year there has been an active speculation carried on in barley, though the operators have been comparatively few in number. The stock in elevator in Chicago at the close of the year is nearly double that of a year since, while that "in sight" is but a trifle larger.

LIVE STOCK.

The receipts and valuations of Live Stock received at the Union Stock Yards at this point for the past seven years, as compiled by Geo. T. Williams, Esq., secretary of the Stock Yards Company, have been as follows:

Years.	Cattle.	Hogs.	Sheep.	Horses.	Total value.
1872	684,075	3,252,623	310,211	12,145	\$ 87,500,000
1873	761,428	4,337,750	291,734	20,289	91,321,162
1874	843,966	4,258,379	333,665	17,588	115,049,140
1875	920,843	3,912,110	418,948	11,346	117,533,942
1876	1,096,745	4,190,006	364,095	8,159	111,185,660
1877	1,033,151	4,025,970	310,240	7,874	99,024,100
1878	1,083,068	6,339,654	310,420	9,415	106,101,879

In addition to the Live Hogs noted above, there has been 102,512 Dressed Hogs received during the past year, making a total of 6,442,166, against 4,190,309 for the previous year.

Prices of all kinds of stock have ruled lower than in 1877; especially is this true of Hogs.

The trade in cattle has, for the most part, ruled dull, with but little encouragement to shippers, either to or from this market. The shipment of cattle direct to Europe has assumed very considerable proportions, and, with continued care in the selection and handling of stock designed for this purpose, seems likely to become a very important element in the trade, none but the higher grades of healthy cattle should be taken for export, lest prejudices should arise which it would take time to overcome. It would seem that with judicious management this trade might be carried to great proportions, to the mutual benefit of both American stock raisers and European consumers. The first introduction of American beef into the English markets is said to have met a decided prejudice, but its superior quality, and the low prices at which it could be sold, has partly, at least, overcome this feeling, and it is now used extensively by all classes. As in breadstuffs and preserved meats, so, too, in the finest qualities of fresh meats, we are able, and ought to supply a large portion of the European demand.

The trade in Hogs, while of immense proportions as to numbers, has not been very satisfactory to dealers. The general tone of the market, except a slight reaction about midsummer, has been downward, closing at a lower range of prices than have prevailed since Chicago became an important market for Hogs. The quality of the offerings has generally been good, the average weight for the year being 246½ pounds. The Agricultural Department at Washington estimates the number of Hogs in the country at the close of the year at some five per cent more than at the close of 1877, the increase being credited mainly to states west of the Mississippi river.

The trade in sheep is not of great importance at this point; only about twice as many are received as are consumed in the city. A few, of choice quality, have been taken for export to Europe.

PORK PACKING AND THE PROVISION TRADE.

Chicago now packs more hogs annually than was packed in the whole country west of the Allegheny mountains eight years since, the aggregate for 1878 being over 5,000,000 head. This immense business is almost wholly conducted within a small area of territory near the southern city limits, and is but little seen or its extent appreciated by most of the people of the city, save by the occasional aroma which floats on the southern breeze. The business, which in former years was confined almost exclusively to the winter months,

now extends over the whole year, so that the so-called packing season has come to have neither beginning nor ending. In former years pork packing meant, in the main, the packing of pork into barrels; now less than 15 per cent of the product is so packed, the remainder being dry salted and either shipped in bulk or in boxes. The operations of the larger packing establishments are reduced to a science, and every step in the process is carefully guarded with reference to economy and the utilization of every particle of the slaughtered animal. No feature of the business of Chicago will be a source of greater interest to the visitor than an inspection of some of these great establishments.

The trading in provisions during the past year has been less active than for several of the recent years. Speculation has languished, the generally downward course of prices discouraging investments, and the low range current deterring speculative sales for future delivery. There has been a steady consumptive demand, and stocks, with the exception of barreled pork, have worked down to a comfortable volume. The manufacture of barreled pork during the winter of 1877-78 was larger by about 50,000 barrels than ever before. This has hung heavily on the market, and a considerable amount was left on hand at the close of the year, after which it will be no longer deliverable on regular sales. The shipments show a remarkably uniform movement to consumptive points. A detailed statement of this movement by weeks is submitted herewith.

Prices have ruled declining throughout the year, except that a reaction to some extent occurred from early in June to the middle of August. Mess pork opened at about \$11.40 per barrel, and closed at only a shade over \$6. Prime steam lard opened at about 71½ cents per pound, and closed at about 5¾. Short rib sides opened in January at 5½ @ 5¾, sold as high as 6¾ in August and closed at 3¼ @ 3¾. The shipments of hog product from Chicago amounted to about 570,000 tons,—equal to over 150 car-loads of twelve tons each, for every day in the year, Sundays excepted.

The exports of hog product have increased by 40 per cent or more over those of 1877, the great bulk of this movement being by way of New York. Direct exports from Chicago to Europe have been 549,225 boxes bacon and hams and 290,792 packages lard against 385,413 boxes bacon and hams and 199,649 packages lard in 1877. The declared value of exports of hog product for the year ending June 30, of the whole country, was \$86,679,979, being over \$5,000,000 in excess of the previous year, notwithstanding the great reduction in prices.

DAIRY PRODUCTS.

The receipts of butter have been 48,379,282 pounds, and of cheese 39,669,632 pounds, besides consignments by express, the amounts of which are not known, but are believed to be inconsiderable. In both of these articles there has been a large increase over 1877. Prices have ruled lower, and the market, as a general thing, has been dull.

The quality of western dairy products is steadily improving, but there is still room for great improvement in much of that which is sent to market. The export trade in cheese has increased considerably over 1877, but that in butter shows only a slight gain. It is a noticeable fact that nearly all the cheese and about one-third of the butter exported from this country goes to Great Britain.

SEEDS.

The receipts of seeds have been about 10 per cent larger than the previous year, the increase being wholly on flax, which is rapidly becoming one of the principal crops in central Illinois, and is largely grown in many other portions of the west. Of that reported as flax seed the receipts were 85,627,370 pounds,—over 1,500,000 bushels; of that reported as grass seed the receipts were 48,333,521 pounds; this latter, however, undoubtedly includes some small lots of flax, the distinction not being rigidly observed by all the

railway companies. The reported shipments are probably somewhat too small by lake, as the balance-sheet leaves more seed unaccounted for than has probably been consumed or remains in the city. Nearly 3,000,000 pounds have been exported to Europe direct from Chicago. The market for flax seed has ruled lower than in 1877, the decline applying, however, almost exclusively to the early part of the year. Previous to the incoming of the new crop prices averaged full 30 cents lower than for the corresponding time the previous year. For the new seed prices have been but about 3 cents lower than for the same time in 1877; closing, however, at the lowest point of the year, \$1.15@1.20 for good to choice seed. In timothy seed the market in January ranged from \$1.20 to \$1.30, in December \$1.05@1.12. The decline after August 1 was almost continuous, with slight reactions. Clover seed has been in good demand and ruled comparatively steady, the extreme range for strictly choice being from \$4 to \$4.90,—the highest in February, the lowest in December.

MISCELLANEOUS.

In the numerous other articles of farm produce marketed in Chicago the trade has been fully up to its usual proportions, and in some very much heavier than ever before. In lumber, the volume of business has been very large and conducted with satisfactory results. The receipts were in excess of any previous year except 1872, when there was an extraordinary local demand for rebuilding after the great fire. The receipts of shingles were larger than ever before.

DIRECT FOREIGN TRADE.

The direct export trade has almost doubled within a year, aggregating 602,018 tons in 1878, against 309,185 in 1877, the increase being especially marked in flour, wheat, corn, hog product, butter and cheese and seeds. The details of these shipments for 1878, with comparisons for previous years, will be found under an appropriate heading.

THE CARRYING TRADE.

Freight rates eastward from Chicago during 1878 have ruled low and within narrow fluctuations. All rail rates to New York by regular tariff have ranged between 20 and 40 cents per 100 lbs on grain, and between 20 and 45 cents on boxed meats, with some abatements from the lowest figure during the summer; to Boston 5 cents higher, to Philadelphia 2 cents lower, and to Baltimore 3 cents lower than to New York. Combinations for the maintaining of freight rates have been only partly successful in accomplishing their object, very little confidence in each other having, apparently, been the rule among railway managers. Relatively more favorable terms have been made to a considerable extent for property by other routes than via this city, and the volume of traffic to and from the city has been sensibly lessened in consequence of these discriminations. Lake freights have averaged lower than in 1877. From about the middle of June to August 1 the ruling rate on corn, hence to Buffalo by sail, was under 2 cents per bushel, mainly $1\frac{1}{2}$, with about $\frac{1}{4}$ of 1 cent per bushel higher on wheat. This, of course, was little, if anything, more than a bare living rate for the largest class of vessels, and ruinous to the medium and smaller classes. After August 1 rates improved a trifle, and during the fall months the business resulted in some profit to vessel-owners. Rates, however, did not reach 5 cents on corn to Buffalo until the last trip, and just at the close of navigation a few cargoes paid 6 cents. Through rates by lake and canal to New York were as low at one time in July as $5\frac{3}{8}$ cents on corn, and the highest was 13 cents, in October. Lake-and-rail freights ruled from 1 to 3 cents per bushel higher than by lake and canal, but corn was taken by this mode of transportation as low as 7 cents per bushel. Erie canal freights ranged from $3\frac{3}{4}$ to $7\frac{1}{2}$ cents Buffalo to

New York on corn, and $4\frac{1}{4}$ to $8\frac{1}{2}$ cents on wheat. The revolution in freight charges eastward from this city is as marked as any feature of the produce trade. An eminent authority on the subject of transportation statistics and possibilities a few years since published a statement as to the attainable rates that might in the future be secured by an enlarged and practically free Erie canal and an enlarged class of vessels on the lakes. That estimate was that, under these conditions, a ton of wheat might be transported from Chicago to New York for \$5.62. That has been accomplished within the past year at \$2.25, or $6\frac{3}{4}$ cents per bushel. It is hardly probable that the most sanguine advocate of cheap railroad transportation expects that as low a rate as this can ever pay for the same service performed by rail. The water line is undoubtedly the great advantage that Chicago possesses for attracting to her the produce of the northwest. Railway lines are invaluable as auxiliaries to this great route, but it must continue, as in the past, to regulate the rates that will prevail for moving from the producer to the consumer this vast volume of traffic. The relative advantages of the northern and southern routes from the west to Europe is shown in the great disparity of shipments of western grain via the lakes and via New Orleans. The total exports of grain from New Orleans to Europe in 1878, with a good stage of water at the mouth of the Mississippi river, being less than 7,500,000 bushels of all kinds.

In connection with the general subject of transportation as it relates to the interests of the northwest, the question of the future of the Illinois and Michigan canal has a most important bearing. This work, while generally regarded, by those who have not carefully considered the subject, as of trifling consequence, yet is doubtless performing a silent work, but little appreciated even by its friends. It is true that the aggregate of property moved by it is comparatively insignificant, and the expenses of its maintenance are nearly equal to its revenues, but its influence in controlling freight rates extends to vastly more property than that which is handled on its surface. As a measure of true public economy, it would undoubtedly be wise that it be maintained in a state of perfect efficiency, even though it yielded not a dollar in direct revenue. In its present condition, however, it is not able to exert a tithe of the wholesome influence it would be capable of doing were it enlarged and extended as nature seems to have designed it should be. The improvement of the whole length of the Illinois river from La Salle to its mouth would so enlarge the influence of this great water-way that the cost of completing the work would be returned to the state many fold within a short time. The greatest results, however, would doubtless be achieved by the extension of the canal directly west to the Mississippi river. This would enable it, in large measure, to control all freight rates contiguous to itself or to the Mississippi from the southern Iowa line to the head of navigation. The work would then be quite similar to the Erie canal, and would be of the highest national importance. It is hoped that the subject of the enlargement and extension of this public work, and the improvement of its connections, may receive that consideration from the state and national governments which its great importance to a vast area of territory directly, and to the whole country indirectly, demands.

I am, MR. PRESIDENT,

Very respectfully,

Your obedient servant,

CHAS. RANDOLPH,

Secretary.

CHICAGO, *January 1, 1879.*

REPORT OF THE BOARD OF DIRECTORS.

To the Members of the Board of Trade, Chicago:

GENTLEMEN,—As required by the rules of the Board, and in accordance with the established custom at the annual meeting of the Association, your Board of Directors respectfully submit “a full report of receipts and expenditures, properly classified, and an exhibit of the financial affairs, property and general condition of the Association.”

At the last annual meeting the assets of the Board, exclusive of furniture and fixtures, were stated to be:

One thousand and fifty shares Chamber of Commerce stock, net cost	\$84,194 76
Chicago city 7 per cent bonds, par value	10,000 00
Chicago city 6 per cent certificates, par value	25,000 00
Chicago city 7 per cent certificates, par value	15,000 00
Hyde Park 7 per cent bonds, par value	30,000 00
Chicago & Alton Railroad stock, par value	10,000 00
Cash with Treasurer and Secretary	2,708 83
Total	<u>\$176,903 59</u>

The above investments have remained unchanged, except that the \$40,000 of Chicago city certificates have been paid, and that amount has been reinvested in United States four per cent bonds, which are registered at Washington in the name of the Board. All the investments have paid their regular dividends or interest. The Chamber of Commerce stock having paid \$723.32 in excess of six per cent per annum on the funds invested in it, that amount has been credited to the stock, reducing its net cost as it now stands on the books of the Board to \$83,471.44.

The receipts and disbursements of the past year have been as follows:

RECEIPTS.

From annual assessments, 1,799 members at \$20	\$35,980 00
From clerks' tickets	8,840 00
From special tickets (railroad and other agents)	700 00
From visitors' tickets	5,310 00
From transfers of memberships, 140 at \$10	1,400 00
From rents of sample tables, drawers and premiums	4,226 50
From fines for irregular trading	20 00
From interest and dividends on investments and on the Treasurer's account	12,311 65
Total receipts	<u>\$68,788 15</u>
Add cash on hand as per last annual statement	2,708 83
Total to be accounted for	<u>\$71,496 98</u>

DISBURSEMENTS.

For Current Expenses:

Rent, heating and water	\$21,722 56
Salaries (except elevator)	19,700 37
Maintaining and running elevator	2,677 22
Forward	<u>\$44,100 15</u>

Brought forward	\$44,100 15	
Market reports and telegraphing	7,394 79	
Annual report, less sales	2,563 12	
Repairs, including refrescoing, etc.	4,532 79	
Stationery and printing	1,230 98	
Sundry items, including ice, gas, soap, towels, brooms, newspapers and circulars, postage, expressage, extra labor, trading platforms, observatory time, election tellers, flour samples, etc.	3,090 56	
Legal expenses	4,558 65	
		\$67,471 04
For expenses commercial building, less rentals received		3,585 17
Total disbursements		\$71,056 21
Cash on hand with the Treasurer	\$157 73	
Cash on hand with the Secretary	283 04	440 77
		\$71,496 98

The assets of the Board at the present time are as follows:

One thousand and fifty shares of Chamber of Commerce stock, net cost	\$83,471 44
Chicago city 7 per cent bonds, par value	10,000 00
Hyde Park 7 per cent bonds, par value	30,000 00
United States 4 per cent registered bonds, par value	40,000 00
Chicago & Alton Railroad stock, par value	10,000 00
Cash in the hands of the Treasurer and Secretary	440 77
Total	\$173,912 21

It will be observed that the revenues of the Board for the past year have been over \$10,000 less than in 1877, a large portion of which is in the decreased payments for the various forms of tickets of admission to the Exchange-rooms. Current expenses have increased about \$2,500—some items being larger and others less than the previous year. The entire receipts have fallen short of the expenditures by \$2,268.06.

The Board see no reason for anticipating any increase in the revenues for 1879, but have not deemed it wise to increase the annual assessment, as they would be justified, under the rules, in doing, and have fixed the assessment for 1879 at twenty (20) dollars on each member. This will undoubtedly require some recourse to the accumulated funds of the Board, but the Directors hope it may not prove a serious encroachment on them.

The membership at the close of the year has been reduced, by lapses for non-payment of the assessment for 1878, to seventeen hundred and ninety-nine (1,799); nearly all of the delinquents were under vote of suspension, and several of them have left the city.

Death has invaded our ranks and taken away seventeen of those who were of our number a year since. Several of these had been associated with us for many years, some almost from the organization of this Association; the young and the mature have alike been called to surrender their lease of life, and part forever with the scenes of this world, with its joys and its sorrows, its sunshine and its clouds. While we drop a tear at bidding them farewell, we recall with pleasing memories their many virtues, and the almost unexceptionally high record they have left as honorable merchants, worthy citizens and kind friends.

In the early part of the past year your Board of Directors, in accordance, as they believed, with the general wish of those engaged in the Provision trade, effected a re-organization of the Inspection of Provisions, by consolidating under one head the whole official inspection of the immense amount of provisions handled in this market; and, later, established a system for the Registration of all warehouse receipts for provisions delivered on contract by the members of this Association. The adoption of these measures are believed to have given a high degree of satisfaction to all engaged in buying, selling or advancing upon provisions, imparting as they do a confidence in the paper representa-

tives of provisions held in store that was not attainable under the former mode of conducting the business. The system of registration, which it was deemed proper should be free of charge to the issuers or holders of warehouse receipts, necessarily entails some expense on the Board, but it is believed this will be cheerfully borne by the members, in view of the resulting advantages. The fees for the inspection of provisions have been voluntarily reduced by the chief inspector; the reduction probably amounting to much more than the expense incurred by the establishment of the system of registration.

In obedience to a general desire on the part of those engaged in the Flour trade, a system of inspecting flour by grade has also been established within the past year, and is now in successful operation. While it is probable that in most instances dealers in flour will still prefer the inspection by sample of the bulk of the flour sold in this market, yet it is believed a considerable and growing demand will arise for inspection by grade, especially on lots designed for export.

The general business of the members of this Association and of our city during the past year has far exceeded in volume that of any year in our history. Our receipts of agricultural products have been greatly in excess of our most sanguine expectations, and although current prices have been at a low average, yet they have formed the basis of exchange for a largely increased volume of purchases from our merchants, whose goods have also ruled low in price.

The opening year finds the financial affairs of our country again upon a basis of values that insures a confidence in business calculations, to which for seventeen years we have been comparatively strangers. With the apparently ample success with which the new order of things has been inaugurated, we may, with reasonable assurance, assume that our dollar of to-day will be the same in value whether invested by us or returned to us in the near or the remote future. This should, and doubtless will, inspire a new life and vigor into all commercial and other industrial enterprises, and tends to strong confidence in an early day of genuine prosperity to all parts of our common country, but nowhere do we find the promise so encouraging as in our own northwest with its boundless resources, its convenient and cheap means of communication with the whole civilized world, and its population of intelligent, industrious and enterprising citizens. May the members of this Association, standing as they do in the very gateway of the ebb and flow of this vast commerce, be ever ready, by wise and honorable dealing, to win golden harvests to themselves, while at the same time they are, as best they can, devising measures for the promotion of the highest and best interests of our friends who, by their labor and their enterprise, are developing the beauty and the wealth of our outlying prairie farms.

Respectfully submitted on behalf of the Board of Directors.

N. K. FAIRBANK, *President.*

CHICAGO, *January 13, 1879.*

1876	747,512,376	209,281,245	44,329,489	1,001,123,110	1,480,600
1877	700,096,143	189,465,922	41,637,243	931,199,308	1,442,464
1878	649,094,336	167,679,561	40,461,865	857,235,762	802,312

NOTE.—Up to 1850 only the aggregate valuations in the several counties were reported to the State officers, and from 1852 to 1857, inclusive, a few counties returned only the aggregates; hence the details of Real Estate and Personal Property valuations are not complete for those years. In 1867 and 1868 the details of valuation are not entirely correct, owing to changes by the operation of the equalization law; since 1868 the valuations are as equalized. The total valuations in each of the several years are entirely correct and official.

The valuations for 1873 as equalized are largely in excess of any previous year. In 1874 some changes were made in the manner of equalizing the assessments, resulting in reducing all the valuations, but especially that of Railroad Property.

The State Debt, as noted, represents it as it stood on the 1st of January in each of the several years to 1869. In 1869 and 1870, as it stood December 1. In 1871, as it stood December 31. Since 1872, as it stood December 1.

On the 31st of December, 1878, Bonds of the State to the amount of \$274,553 had been called in for payment by money in the State Treasury, so that practically the bonded debt is reduced to \$527,759.

STATEMENT

Showing the Debts of the several Counties in the State of Illinois, and the Township, Municipal, School, and other Public Debts of each County, as reported to the State Auditor of Public Accounts, July 1, 1878.

NOTE. — From 1851 to 1862, inclusive, a Lamp Tax of half a mill to two mills was levied on certain portions of the city, and is included in the above Total Tax. The city debt, as noted, represents it as it stood on February 10 in 1852 to 1854, inclusive; on February 1 in 1855 to 1861, inclusive; on April 1 in 1862 to 1874, inclusive; and on December 31 in 1875, 1876, 1877 and 1878. Valuations for 1875, 1876, 1877 and 1878 are by the County assessment, as equalized by the State Board of Equalization. Of the whole bonded debt of the city \$4,248,000 are Water bonds. The income from water rents now pays the operating expenses, interest on the indebtedness on account of water, and leaves a surplus for extension of the water mains and for retirement or redemption of the bonds.

PUBLIC DEBT OF THE UNITED STATES.

(Official.)

The following Statement exhibits the amount of the Debt of the United States Government in each year since 1790:

In the last eleven amounts the cash in the Treasury is deducted from the aggregate debt, and bonds issued in aid of the Pacific Railroads are not included; these amounted, on the first day of January, 1879, to 93,887,449.15. including interest paid by the United States.

DETAILED STATEMENT

Of the Public Debt of the United States on the 31st of December, 1878.

DEBT BEARING INTEREST PAYABLE IN COIN.		AMOUNT OUTSTANDING.
Five per cent. Bonds issued under Acts of Congress prior to 1861.....	\$260,000 00	
Six per cent. Bonds known as Bonds of 1881.....	283,681,350 00	
Six per cent. Consols authorized March 3, 1865, payable 1885-7-8	374 164,850 00	
Five per cent. Bonds known as 10-40 Bonds	194,566,300 00	
Five per cent. Bonds (Funded Loan) payable after May 1, 1881.....	508,440,350 00	
Four and a half per cent. Bonds (Funded Loan) payable after Sept. 1, 1891	250,000,000 00	
Four per cent. Bonds (Funded Loan) payable after July 1, 1907.....	198,700,000 00	\$1,809,812,850 00
DEBT BEARING INTEREST PAYABLE IN LAWFUL MONEY.		
Three per cent. Navy Pension Fund.....		14,000,000 00
Debt past due upon which interest has ceased since maturity		22,446,460 26
DEBT BEARING NO INTEREST.		
Old Demand Notes issued in 1861-2	\$62,035 00	
Legal Tender Notes	346,681,016 00	
Fractional Currency.....	16,108,154 62	
Certificates of Deposit payable in Currency	34,515,000 00	
Certificates of Deposit payable in Gold.....	21,580,700 00	
Certificates of Deposit payable in Silver.....	2,496,130 00	
Interest due, and accrued but not due.....	34,841,792 96	\$456,284,828 58
Total Debt		\$2,302,544,138 84
FUNDS IN THE TREASURY.		
Coin belonging to the United States	\$200,788,647 62	
Coin belonging to Depositors on Certificates	24,076,830 00	
Total Coin.....	\$224,865,477 62	
Currency held for redemption of Certificates of Deposit as required by law.....	34,515,000 00	
Currency held for redemption of Fractional Currency.....	10 000,000 00	
Other Currency.....	4,515,550 13	\$273,896,027 75
Total Debt, less Funds in the Treasury.....		\$2,028,648,111 09
Corresponding Statement of December 31, 1877.....		2,045,955,442 79
Reduction of Debt in 1878		\$17,307,331 70
Reduction of Debt in 1877		46,965,799 02
Reduction of Debt in 1876		26,910,953 46
Reduction of Debt in 1875		22,766,106 75
Reduction of Debt in 1874		16,717,024 15
Reduction of Debt in 1873		2,937,011 95
Reduction of Debt in 1872		81,586,073 02
Reduction of Debt in 1871		88,229,382 61
Total Reduction of Debt in eight years		\$333,419,682 66
Bonds issued in aid of Railroads not included in the above State- ment, interest on which is payable in Lawful Money. For these Bonds the Government holds a lien upon the various lines.		
Issued to Union Pacific Railroad	\$27,236,512 00	
Issued to Central Pacific Railroad	25,885,120 00	
Issued to Kansas Pacific Railroad	6,303,000 00	
Issued to Western Pacific Railroad.....	1,970,560 00	
Issued to Sioux City and Pacific Railroad	1,628,320 00	
Issued to Central Branch Union Pacific Railroad	1,600,000 00	\$64,623,512 00
Balance of Interest paid by the United States.....	\$29,263,937 15	
Interest accrued but not yet due.....	1,938,705 36	\$31,202,642 51
Total Principal and Interest.....		\$95,826,154 51
Corresponding Statement December 31, 1877		93,513,656 88
Increase of Interest Balance during 1878.....		\$2,312,497 63

GOLD PREMIUM.

The following shows the lowest and highest prices for Gold in Legal Tender Notes, in New York, from January, 1862, to December 31, 1878; also the lowest and highest prices for the same during each of the several years.

1863-4.....	3,261,105		

SUMMER PACKING.

During the season from March 1 to November 1, in 1875, there were packed in the Western States 1,237,939 Hogs; during the same months in 1876, 2,300,328 Hogs, and during the same months in 1877, 2,543,120; in 1878 it has been about 3,418,000 Hogs. Previous to 1875 this packing was mainly confined to March and October, and scarcely ever exceeded 500,000 Hogs. Of this class of packing there were packed in Chicago in 1875, 728,781 Hogs; in 1876, 1,315,402 Hogs; in 1877, 1,508,026 Hogs, and in 1878, 2,093,000 Hogs.

COMPARATIVE STATEMENT

Of the last Ten Packing Seasons,

November 1 to February 28.

NOTE.—A considerable quantity of Salt is received in bulk and in sacks; this has not been included in the aggregate of previous years, but since 1876 is calculated at its equivalent in barrels. In the aggregate of Seeds all kinds are included, the reports of different kinds being too unreliable to justify a separation.

RATES OF INSPECTION.

GRAIN.—STATE INSPECTION.

For inspecting grain from cars, per car.....	\$0 25
For inspecting grain from wagons, per load.....	10
For inspecting grain aboard of vessels, per M bushels.....	40
For inspecting grain from canal boats.....	40
For inspecting grain in sacks, per bushel.....	1/4
For inspecting grain to cars, in bulk, per car.....	30
For inspecting grain to teams, per car.....	30
For inspecting grain to teams, per load.....	10

FLOUR.

For inspecting flour, per barrel.....	\$0 02
For inspecting flour, per sack.....	01

PROVISIONS.

For inspecting beef and pork—for the first five barrels, per barrel.....	80
For inspecting beef and pork—for each additional barrel.....	25
For inspecting bulk or boxed meats, per M pounds, in lots of car loads or more.....	15
For inspecting lard, tallow and grease, per package.....	04
For stripping lard, tallow and grease, per package.....	1 00

HIGHWINES.

For inspecting highwines, per barrel.....	10
-------------------------------------------	----

WEIGHMASTER'S TARIFF OF PRICES

Sundries, weighed on platform and beam scales, and handled at the expense of the Weighmaster, will be charged as follows:

Grain, seed, beans, potatoes, and similar articles, in bags, per bag.....	\$0 02
Sugar, in hogsheads and boxes, per 100 pounds.....	02
Salt, in sacks, per 100 pounds.....	02
Pig iron and lead, per 100 pounds.....	02
Bulk or boxed meats, per 100 pounds.....	02
Broom corn, in lots of 50 bales or more, per bale.....	06
Broom corn, in lots of less than 50 bales, per bale.....	07
Wool, per sack, in lots of 50 or more.....	07
Wool, per sack, in lots of less than 50.....	08
Coal and salt, per ton.....	05
Lard, tallow, grease and stearine, per package.....	05
Butter and lard, in kegs, each.....	04
Dressed hogs, each.....	02
Salt, sugar, dried fruit, and similar articles, per barrel.....	04
For weighing grain to vessels, by cargo, from elevators, per M bushels.....	20
For weighing grain from canal boats, per boat.....	1 00

RULES GOVERNING THE INSPECTION OF GRAIN

IN THE CITY OF CHICAGO.

In force from and after October 1, 1878.

The following are the rules adopted by the Board of Railroad and Warehouse Commissioners, establishing a standard of grades for the inspection of grain, under the authority of the State of Illinois:

WINTER WHEAT.

No. 1 WHITE WINTER WHEAT shall be pure White Winter Wheat, sound, plump, and well cleaned.

No. 2 WHITE WINTER WHEAT shall be pure White Winter Wheat, sound and reasonably clean.

No. 1 RED WINTER WHEAT shall be pure Winter Wheat, red, or red and white mixed, sound, plump and well cleaned.

No. 2 RED WINTER WHEAT shall be pure Winter Wheat, red, or red and white mixed, sound and reasonably clean.

AMBER WHEAT, Nos. 1 and 2, shall include the lighter colored varieties of Red Wheat; quality and condition to be equal to the present standard of Nos. 1 and 2 Red Winter Wheat.

No. 3 WINTER WHEAT shall include Winter Wheat not clean and plump enough for No. 2, and weighing not less than 54 pounds to the measured bushel.

REJECTED WINTER WHEAT shall include Winter Wheat damp, musty, or from any cause so badly damaged as to render it unfit for No. 3.

SPRING WHEAT.

No. 1 HARD SPRING WHEAT shall be sound, plump and well cleaned.

No. 2 HARD SPRING WHEAT shall be sound, reasonably clean, and of good milling quality.

No. 1 SPRING WHEAT shall be sound, plump and well cleaned.

No. 2 SPRING WHEAT shall be sound, reasonably clean, and of good milling quality.

No. 3 SPRING WHEAT shall include all inferior, shrunk or dirty Spring Wheat, weighing not less than 53 pounds to the measured bushel.

REJECTED SPRING WHEAT shall include Spring Wheat damp, musty, grown, badly bleached, or for any other cause which renders it unfit for No. 3.

In case of mixture of Spring and Winter Wheat, it shall be called Mixed Wheat, and graded according to the quality thereof.

BLACK SEA AND FLINTY PFIFE WHEAT shall in no case be inspected higher than No. 2, and Rice Wheat no higher than Rejected.

CORN.

No. 1 YELLOW CORN shall be yellow, sound, dry, plump and well cleaned.

No. 1 WHITE CORN shall be white, sound, dry, plump and well cleaned.

No. 1 CORN shall be sound, dry, plump and well cleaned, white and yellow unmixed with red.

HIGH MIXED CORN shall be three-quarters yellow and equal to No. 2 in condition and quality.

No. 2 CORN shall be dry, reasonably clean, but not plump enough for No. 1.

No. 2 KILN DRIED CORN shall be sound, plump and well cleaned, White or Yellow. All kiln-dried corn not good enough for No. 2 kiln-dried shall be graded as Rejected kiln-dried Corn.

NEW HIGH MIXED CORN shall be three-fourths yellow, of any age, reasonably dry, and reasonably clean, but not sufficiently dry for "High Mixed or No. 2."

NEW MIXED CORN may be less than three-fourths yellow, of any age, and shall be reasonably dry and reasonably clean, but not sufficiently dry for No. 2.

REJECTED — All damp, dirty or otherwise badly damaged Corn shall be graded as Rejected.

OATS.

No. 1 OATS shall be white, sound, clean, and reasonably free from other grain.

No. 2 WHITE OATS shall be three-quarters white and equal to No. 2 in all other respects.

No. 2 OATS shall be sound, reasonably clean, and reasonably free from other grain.

REJECTED — All Oats, damp, unsound, dirty or for any other cause unfit for No. 2, shall be graded as Rejected.

RYE.

No. 1 RYE shall be sound, plump and well cleaned.

No. 2 RYE shall be sound, reasonably clean, and reasonably free from other grain.

REJECTED — All Rye, damp, musty, dirty, or from any cause unfit for No. 2, shall be graded as Rejected.

BARLEY.

No. 1 BARLEY shall be plump, bright, sound, clean, and free from other grain.

No. 2 BARLEY shall be sound, bright, not plump enough for No. 1, reasonably clean, and reasonably free from other grain.

EXTRA No. 3 BARLEY shall include slightly shrunken and otherwise slightly damaged Barley not good enough for No. 2.

No. 3 BARLEY shall include shrunken, or otherwise damaged Barley, weighing not less than 41 pounds to the measured bushel.

FEED BARLEY shall include all Barley which is damp, or from any cause badly damaged or unfit for malting purposes, or which is largely mixed with other grain.

The word "new" shall be inserted in each certificate of inspection of a newly-harvested crop of Oats until the 15th day of August; of Rye, until the 1st day of September; of Wheat until the 1st day of November; and of Barley until the 1st day of May of each year. This change shall be construed as establishing a new grade for the time specified, to conform in every particular to the existing grades of grain, excepting the distinctions of "new" and "old."

All grain that is warm or that is in a heating condition, or is otherwise unfit for warehousing, shall not be graded.

All Inspectors shall make their reasons for grading grain, when necessary, fully known by notations on their books. The weight alone shall not determine the grade.

Each Inspector is required to ascertain the weight per measured bushel of each lot of wheat inspected by him, and note the same in his book.

Any person who shall assume to act as an Inspector of Grain, who has not first been so appointed and sworn, shall be held to be an impostor, and shall be punished by a fine of not less than \$50 nor more than \$100 for each and every attempt to so inspect grain, to be recovered before a justice of the peace.

Any duly authorized Inspector of Grain, who shall be guilty of neglect of duty, or who shall knowingly or carelessly inspect or grade any grain improperly, or who shall accept any money or other consideration, directly or indirectly, for any neglect of duty or the improper performance of any duty as Inspector of Grain, and any person who shall improperly influence any Inspector of Grain in the performance of his duties as such Inspector, shall be deemed guilty of a misdemeanor, and, on conviction, shall be fined in a sum of not less than \$100 nor more than \$1,000, in the discretion of the court, or shall be imprisoned in the county jail not less than three nor more than twelve months, or both, in the discretion of the court.

All Assistant Inspectors, when upon duty, shall wear a badge furnished by the Chief Inspector, plainly designating the position of each in the department.

The said Chief Inspector, and all persons inspecting grain under his direction, shall in no case make the grade of grain above that of the poorest quality found in any lot of grain when it has evidently been mixed or doctored for the purpose of deception.

All persons employed in the inspection of grain shall report all attempts to defraud the system of grain inspection as established by law. They shall also report to the said Chief Inspector, in writing, all instances where warehousemen deliver, or attempt to deliver grain of a lower grade than that called for by the warehouse receipt. They shall also report all attempts of receivers or shippers of grain to instruct or in any way influence the action or opinion of the Inspector, and the Chief Inspector shall report all such cases to the Commissioners.

Railroad and Warehouse Commissioners of Illinois.—WM. M. SMITH, J. H. OBERLY, GEORGE M. BOGUE.

Chief Inspector of Grain.—JOHN P. REYNOLDS.

Committee of Appeals on Grain Inspections.—P. W. DATER, S. D. FOSS, T. H. SEYMOUR.

PUBLISHED RATES OF STORAGE ON GRAIN FOR 1879.

<i>On Grain Received in Bulk.</i>	In cents per bush.
If inspected in good condition when received —	
For the first ten days, or part thereof	1½
For each additional ten days, or part thereof	½
If condemned as unmerchantable when received —	
For the first ten days, or part thereof	2
For each additional five days, or part thereof	½

From November 15 to April 15 the above rates will be charged on Grain in good condition until four (4) cents per bushel has accrued, after which no additional storage will be charged during the time named so long as the Grain remains in good condition.

VISIBLE SUPPLY OF GRAIN.

The following Statement embraces the stocks of Grain on hand weekly, during the year 1878, at the principal points of accumulation in the United States and Canada, as compiled and reported by E. H. Walker, Esq., Statistician of the New York Produce Exchange. The Statement includes the amounts estimated as in transit from the principal points of shipment.

INTERNAL REVENUE COLLECTIONS.

The following Statement shows the collections of (U. S.) Internal Revenue in the First District of the State of Illinois for the year ending December 31, 1878:

[illegible]

IMPORTATIONS OF TEA AND COFFEE.

(DUTY FREE.)

The following Statement, compiled by Messrs. Moseback & Humphrey, commission merchants and brokers in tea and coffee, No. 42 Wabash Avenue, shows the amount of direct importations of Tea and Coffee by Chicago merchants during the past five years.

This Statement embraces only such shipments as were consigned direct to Chicago from foreign ports, and does not include consignments to Chicago merchants from points in this country or in Canada, nor the importations by Chicago merchants disposed of without reaching Chicago.

FURTHER DETAILS OF DIRECT EXPORTS.

Of the shipments noted on the previous page via Michigan Central Railroad, about 151,000 tons were forwarded by the Foreign Freight Agency of G. Macdonald, Esq., some 92,000 tons of which was exported via Boston. This Agency also forwarded by Lake about 18,000 tons, principally Grain. The Grand Trunk Railway Line forwarded by the Michigan Central Railroad about 1,640 tons. This line was not competing for foreign freights for a considerable portion of the year. Large shipments via Michigan Central Railroad were made by the Agency of the Canada Southern Line, Erie and North Shore Line and International Line. The Hoosac Tunnel Line forwarded via the Michigan Central and Lake Shore Railroads and by Lake about 4,100 barrels Flour, 120,000 bushels Wheat, 60,000 bushels Corn, 5,200 boxes Meats, 13,800 tierces Lard, and various other goods, all within the last three months of the year. The Merchants' Despatch Transportation Company forwarded via Lake Shore & Michigan Southern Railway and by Lake 39,000 barrels Flour, 2,555,000 bushels Wheat, 1,175,000 bushels Corn, 127,393 boxes Meats, 69,000 packages Lard, over 10,000 packages Pork, Beef and Tongues, and large quantities of other freight. Shipments via Pittsburgh, Fort Wayne & Chicago Railway were all by Black and Red Star Lines, 107,974 tons of which went via Philadelphia and 67,377 tons via New York. Shipments via Pittsburgh, Cincinnati & St. Louis Railway were mainly by National Line. The Great Western and Erie and Pacific Despatch Line forwarded over 30,000 packages Meats and Lard, and considerable other freight. W. E. Lawrence, Esq., representing the American Line and the Red Star Line of Steamers from Philadelphia to Liverpool and Antwerp, billed about 61,000 tons by the former and 18,000 tons by the latter, besides large quantities for transportation by sail on the Ocean, including over 18,000 tons of Grain to "Cork for orders." A considerable part of Mr. L.'s shipments went hence by Lake. The Anchor Steamship Line billed a very large amount from both Chicago and Milwaukee; the latter is not included in the aggregate of shipments, and great care has been taken to exclude from these shipments all business not originating in Chicago, even though bills of lading were actually issued for it in this city. The Inman and other Steamship Lines contracted large amounts of freight from Chicago, all of which, as far as reports could be obtained, is included in the general aggregate on the previous page.

FREIGHT RATES FROM CHICAGO TO EUROPE.

The following rates have been compiled from the reports of nearly all the agencies engaged in billing freight from Chicago to Europe, and give, it is believed, a fair idea of the range in rates from Chicago to Liverpool:

Months.	Chicago to Liverpool, Grain, in cents, per 100 lbs.	Chicago to Liverpool, Provisions, in cents, per 100 lbs.
January	63 @64½	73½@95
February	48 @63	56½@75
March	40 @48	48 @58
April	41 @47½	44¾@58
May	42 @46	44¾@51
June	41 @48	46 @54
July	38¼@40	40½@51¾
August	38 @45	40½@61½
September	42 @47½	59½@70½
October	44½@47½	68 @75¾
November	47½@55	67 @82
December	47 @51	50 @79½

NOTE.—Rates, as a rule, have been somewhat the lowest via Boston, although at times other routes would seem to have the advantage in this respect: a marked lack of uniformity has prevailed.

ALL-RAIL THROUGH BUSINESS.

The following Statement shows the amount of Flour and Grain received at Chicago during 1878 by western railways and delivered to connecting lines without passing through a Chicago elevator. These amounts are all included in the general statements of receipts and shipments published herewith, except shipments originating in Milwaukee; those are deducted from the receipts and shipments of Chicago as shown by the general statements, but are included in this.

Received by Chicago & Northwestern Railway.

Months.	Flour, barrels.	Wheat, bushels.	Corn, bushels.	Oats, bushels.	Rye, bushels.	Barley, bushels.	Total No. of Cars.

NOTE. — The above classifications are somewhat arbitrary; nearly all the Flour in Chicago being sold by special sample. During the past year a set of grades for "Double Extra," "Extra," "Superfine" and "Fine" has been established. Some demand has grown up for these, but as yet the trade by grade is of limited proportions.

Choice Minnesota Patent Flours, owing to the limited supply of suitable qualities of wheat for their manufacture, have, since the last harvest, commanded an unusually large premium over other fine qualities.

Monthly Receipts of Wheat for the year 1878.

NOTE.—After the harvest of 1878 the receipts of Winter Wheat were much larger than for several years past. Prices ruled within the range of 83@100½ cents per bushel for No. 2 Red, the extreme being reached August 15, and the lowest about November 1, closing December 31 at 89@90. No. 1 Red ranged but a trifle above No. 2, and No. 3 Red 3@8 cents below No. 2.

NOTE.—Bulk Meats were charged 5 cents per 100 lbs. over current rates for Boxed Meats throughout the year to the seaboard cities. Tariff rates as above were fairly maintained until about May 1, between that date and August 5 more or less cutting was indulged in, in some cases Grain being taken to New York as low as 15@16 cents per 100 lbs. Previous to August 5 a charge was made on all Grain loaded at Elevator of \$2 per car for switching and \$1 per car for trimming. From August 5 to November 25 an extra charge of 2 cents per 100 lbs. was made on all property loaded at Slaughter or Packing Houses.

LAKE (STEAM) AND RAIL FREIGHTS

For the Season of Lake Navigation in 1878.

Weekly Rates of Freight by Propeller Lines from Chicago to Buffalo and Erie, and thence by rail to New York, Boston, Philadelphia and Baltimore.

WEEK ENDING	To Buffalo and Erie.					To New York.					To Boston.					To Philadelphia and Baltimore. Inside figures to Baltimore.
